Icy conditions contingency plan:

1. In the event of icy conditions, either apparent or forecast, the **leader** makes an early decision as to an alternative plan.

The alternatives might be:

- (a) Delay the start time, but retain the original starting point.
- (b) Meet later somewhere else.
- (c) Cancel the ride.

2. The leader phones me, Bob Caldwell, **before 7.45am** 01327 704694 / 07703 821042 with his/her decision.

3. I then email everyone, **ONLY** if there's any alteration, and text those not reachable by email.

Sunday Rides

The Sunday rides will henceforth be of an informal nature, currently involving a diminishing number of riders. Anyone wishing to go out with the group on Sundays should contact Avril 01788 573322, Stuart 01788 562458 or Tony 01788 890615 for details of the start point and approximate destination..

The following have proved useful: 1. Ride together 2. single out if "car up" called. 3. point out potholes to following riders. 4. Negotiate awkward manoeuvres, particularly right turns, as a single group. 5. Wait for slower riders to catch up. 6. Tell leader if you go your own way. 7. Try not to ride forward of the leader. 8. All riders to be CTC members. 9. All bikes to have effective rear mudflaps. 10. Don't wave vehicles on.
