## CTC Coventry & CTC Rugby - Weekly Bulletin

**21st April 2021**

It was very encouraging to see how well our rides went last week - Thursday, Sunday and Tuesday. Nigel took us on a very pleasant route through Lighthorne and Barford for an inaugural Thursday ride.

Tuesday's ride was exceptional with 12-riders - needless to say we split into two groups and Alan took us on an innovative route round the south side of the Kingston estate, near Harbury - it's great to find a road that no-one in the group had used before.

I mentioned the forthcoming special edition of the Bulletin in last week's Bulletin, which will have details of all the events coming up this year. Can I just remind you that Mike Thomas, in particular, has invested a huge amount of time in organising the Special Celebratory Barbeque at Fillongley on 18th July - we are keen for it to be a success, especially after the restrictions we have all been living under. Please make your booking by sending an email to Keith Jeacock : [k.jeacock@btinternet.com](mailto:k.jeacock@btinternet.com). Full details can also be seen on the website: <https://coventryctc.org.uk/special-celebratory-bbq-at-fillongley>

A heart-warming sight at Hunningham Hill on Tuesday.

## Where are we?

Here is the answer to last week's puzzle plus another teaser from Dave Hearn:

**This butter/market cross can be found in the small town of Somerton, which was once the capital of the Anglo-Saxon kingdom of Wessex.**

This is Stembridge Windmill at the village of High Ham in Somerset: is owned and maintained by the National Trust. My question is: what is the unique feature of this windmill not found anywhere else in England?
