

2023 June – The Way of the Roses Tour Information

1. Outline

- 1.1. This is a moving on self-sufficient tour from Morecambe to Bridlington through the Yorkshire Dales. In total the route covers 170 miles and 6,900 ft of climbing. For those that did the Sea to Sea in 2022 that was 130 miles and 8,200 ft of climbs.
- 1.2. You can expect some spectacular riding in scenic countryside with some significant hill climbing.
- 1.3. The tour is currently fully subscribed to the maximum number of 10 riders and we also have a number of people on a waiting list should anyone pull out.
- 1.4. It is envisaged that the total cost of the tour per person will be approximately £420. There is no cancellation policy as such but with people on the waiting list it may be possible for someone else to take your place and refund you. We may be able to refund some money but this is on a best endeavours basis.
- 1.5. We will need your Cycling UK membership number and emergency contact details before the tour starts. Cycling UK membership automatically provides insurance against third party claims whilst cycling, but does not provide protection for personal possessions or cancellation protection. You need to check what your home policy covers – some items are covered outside of the home and others not.

2. Fitness

- 2.1. You must be prepared to ride up to 50 miles each day with up to 2,500 ft of climbing. Also remember you will be carrying the extra weight of panniers and kit.

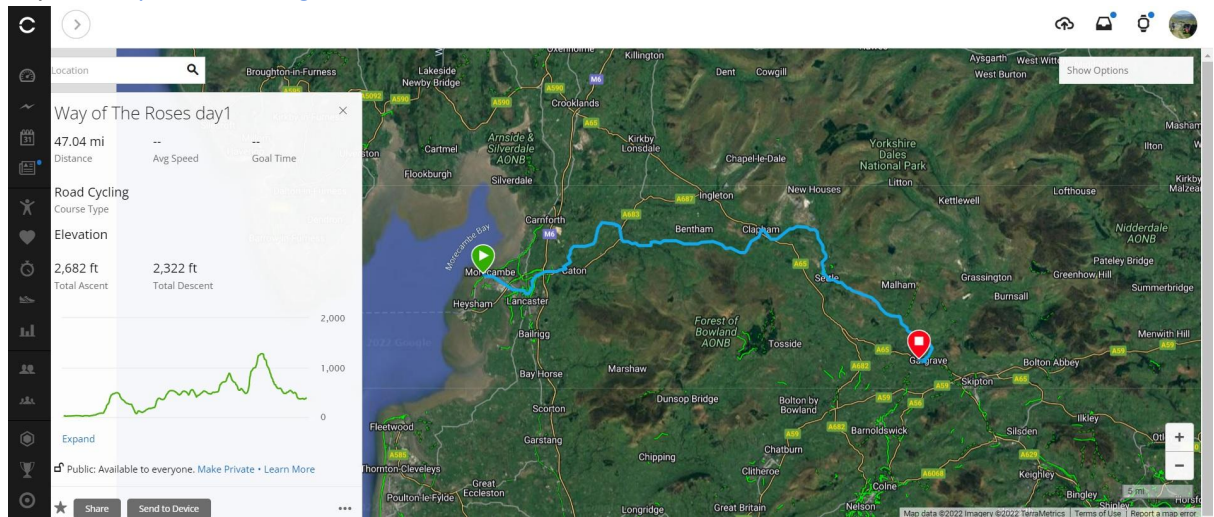

3. Route
